MONTANA HIGHWAY PATROL

HELENA, MONTANA - 59601

TIM BABCOCK
GOVERNOR

ALEX B. STEPHENSON
SUPERVISOR

1 May 1964

Honorable Tim Babcock
Governor of Montana
The Capitol
Helena, Montana

Dear Governor Babcock:

The Montana Highway Patrol takes pleasure in submitting this report of its activities during the year 1963 to you and the citizens of this State.

Despite a steady increase in traffic volume, it is encouraging to note the continued reduction in street and highway fatalities. The eleven percent reduction in 1963 was a further improvement over the seven percent reduction experienced in 1962. Our mileage death rate (deaths per 100 million miles of travel) of six was the lowest in our history. The all-time high was sixteen in 1935.

In spite of this achievement, our death and injury rate is still tragic. The toll of 228 dead and 4,562 others injured should serve as a constant reminder that traffic accidents are a continued threat to the safety and welfare of our people, as well as the economy of our State.

Respectfully submitted,

ALEX B. STEPHENSON, Supervisor
Montana Highway Patrol

SAFETY AND EDUCATION

1963

Safety is a way of life. It is a habit. Safe habits and the rules of safe living must be taught to our young people, if they are to live full and useful lives. If the present traffic trend continues, we must be prepared to accept the death or injury of one of every two pupils currently in the elementary group sometime during his lifetime. This need not be.

We must begin to solve this problem by training our youngsters at an early age, so that they will acquire the proper safety habits and carry them through life. The problem of effecting safe behavior is not the exclusive concern of safety educators, but of all educators. Highway safety should be expanded and taught as part of the curriculum in every school from kindergarten through the grades, laying the proper foundation and attitude so that when they are ready for driver training, it will be a continuation in safety.

In our highly complex and competitive society, the task of education is to provide our young people with the knowledge, the skills, and most important, the attitude they must have to survive. Driver education contributes significantly to the accomplishment of the basic program. The Montana Highway Patrol respectfully urges all citizens and interested organizations to unite in a concerted effort to make high quality driver education courses available to all eligible young people throughout Montana. Only 32 of 212 high schools in Montana now make driver education available to the students.

The Montana Highway Patrol and people of Montana are indebted to the news media -- United Press International, Associated Press, 15 dailies, 81 weeklies, 60 radio and TV stations -- for their contributions of time and effort in promoting traffic safety. The Outdoor Advertising Association donated 648 panel months to traffic safety at a public service cost of \$32,400.00.

The Montana Highway Patrol again assisted in promoting and conducting the voluntary Vehicle Safety-Check program in 20 communities, sponsored by the Auto Industries Highway Safety Committee. Great Falls, Montana, for the third consecutive year won a National Award among cities of its size for the excellence of its program. Montana is one of 26 states in which periodic compulsory vehicle inspection is not yet required by law.

SAFETY AND EDUCATION

Driver training courses for instructors were again offered at Montana State University, Missoula, Montana, under the supervision of Dr. John Urlaub of Berkeley, California, with Supervisor Stephenson and Captain Peter A. Gaasch, of the Montana Highway Patrol, assisting. These courses will be offered again in 1964.

The Montana Highway Patrol purchased 16 new traffic safety films in 1963 at an average cost of \$150.00 per film (\$2,400.00). These films are the very latest and best in traffic safety, including bicycle and pedestrian safety. Films were shown in 139 schools to approximately 20,850 pupils, and to 180 adult groups with approximately 18,000 attending. In addition, we have no way of knowing how many more times these films were shown to groups when patrolmen and other organizations had them out in the field. This increased activity by Montana Highway Patrol personnel and citizen safety organizations is a clear indication of the concern for our traffic safety problem.

The citizens, safety organizations and personnel of the Montana Highway Patrol are to be commended for a job well done in making Montana the only State in the Nation to show a reduction in traffic fatalities for a second consecutive year in 1963.

“IF EVERYONE”

If everyone who drives a car
Could lie a month in bed,
With broken bones and stitched-up wounds,
Or fractures of the head.
And there endure the agonies
That many people do,
They'd never need preach safety
Any more to me or you.

If everyone could stand beside
The bed of some close friend
And hear the Doctor say, “No hope,”
Before that fatal end;
And see him there unconscious,
Never knowing what took place
The laws and rules of traffic
I am sure we'd soon embrace.

If everyone could meet
The wife and children left behind
And step into the darkened home
Where once the sunlight shined,
And look upon “The Vacant Chair,”
Where daddy used to sit,
I am sure each reckless driver
Would be forced to think a bit.

If everyone who takes the wheel
Would say a little prayer
And keep in mind those in the car
Depending on his care,
And make a vow and pledge himself
To never take a chance,
The Great Crusade of Safety
Would suddenly advance.
